BILLING FAQs

- Q. Does my bill for wastewater service include a charge to fund the Low-Income Customer Assistance Program?**
A. Yes. As part of your sewer charges, each month you pay 45 cents to fund the Low-Income Customer Assistance Program. The Low Income Customer Assistance Program ("LICAP") provides a credit on wastewater service to qualified customers. LICAP also provides qualifying customers assistance with water-saving appliances and repairs. More information about our program can be found at: <https://www.citizensenergygroup.com/My-Account>.
- Q. Can I obtain a more detailed list of the charges on my bill?**
A. Yes. Upon request, Citizens will provide monthly bills with more detail on specific charges. You can request a detailed bill by contacting a customer service representative at (317) 924-3311 or selecting the option on-line at <https://www.citizensenergygroup.com/My-Account/MyProfile/Billing-Preferences>. There is no additional charge for a detailed bill.
- Q. My Account Balance seems too high or low. Could there be a problem?**
A. Your total bill is impacted by several factors such as the Previous Balance, Other Activity such as charges or adjustments, and Historical Information. More information is available online at [citizensenergygroup.com](https://www.citizensenergygroup.com) or by contacting Customer Service.
- Q. How does Historical Information help determine if my bill is too high or too low?**
A. Monthly gas and water usage can be compared to previous history using the charts to verify current usage is in line with typical usage. Gas consumption is likely to increase with colder weather and water consumption may be impacted by activity such as lawn irrigation or household changes.
- Q. Why would my meter reading be estimated? What if my reading was over or under-estimated?**
A. Citizens attempts to get actual reads each month, but an estimation may be necessary if we cannot safely access a meter due to weather or obstructions such as landscaping or fences. When estimating bills, Citizens reviews historical usage and considers the weather. The estimated reading will automatically adjust with the next actual reading.
- Q. I think I have a water leak – what should I do?**
A. Please refer to our website for useful, self-help tips or give us a call before contacting a contractor. It could be something as simple as a running toilet/silent toilet leak or a misread.
- Q. Can a deposit be charged to my bill for late payment?**
A. Yes. If the account has two (2) disconnect bills in a row or three (3) disconnect bills in a twelve (12) month period a deposit may be charged to the account.

DEFINITIONS

CCF - Amount of gas and water which goes through the meter, measured in 100 cubic feet. For water and sewer, 1 CCF is approximately 750 gallons.
cr - Indicates a credit.
Therm (THRM) Used - Energy value of the gas used
Conversion - Used to convert the metered consumption to calculated charges for billing purposes (for example CCF to Therms)
Gas Charges - Includes cost of gas used, maintaining a safe and dependable distribution system, meter reading, billing and various customer services.
Bill Adjustment - An adjustment on charges.

DETAILED UTILITY CHARGES

Gas	
Gas Delivery Charge	\$22.19
Facility Charge	\$34.51
Customer Benefit Adjustment	\$0.13 cr
Normal Temperature Adjustment	\$1.19 cr
Rider A	\$42.58
Rider A Balancing	\$0.31
Rider F - General Heat	\$0.07
Sales Tax	\$6.88
Total Gas Charges	\$105.22

DETAILED FAQ

- Q. What is the benefit of the detailed bill?**
A. The detailed bill shows a breakdown of charges. For example, "Gas Charges" on a typical bill includes items such as Delivery Charge, Facility Charge, Rider A, etc. On a typical water bill, "Water Charges" includes items such as Volumetric Water Charge, Cost of Basic Service, etc. which will be shown on a separate page on a detailed bill.
- Q. How do I discontinue the detailed bill option and only receive the typical bill as I always received in the past?**
A. Simply check the box on the back of the remittance coupon to "Discontinue Detailed Bill"
- Q. Why are you offering the detailed bill option to customers now?**
A. We received feedback from customers they would like to see a breakdown of their charges.
- Q. Where do I find the rates?**
A. You can find the rate definitions by visiting our website at www.citizensenergygroup.com and selecting "Rates & Regulatory Notices". If you live in Westfield you will then select "Citizens Westfield" if not please select "Citizens Energy Group". Once there, please select the option that applies.

DETAILED DEFINITIONS

- Customer Benefit Adjustment** - A credit designed to distribute, to all customers, funds as approved by the Indiana Utility Regulatory Commission (IURC).
- Facility Charge** - A flat rate per month designed to recover a portion of the fixed costs incurred by the Utility to provide Gas Delivery Service to the customer. This includes such things as meter reading, billing, call center operation, servicing equipment, and maintenance of the pipeline.
- Gas Delivery Charge** - A rate per unit of gas consumed by a customer, designed to recover fixed and variable costs incurred by the Citizens to provide Gas Delivery Service to the customer's meter, not otherwise recovered through the Facility Charge.
- Normal Temperature Adjustment** - Normal Temperature Adjustment adjusts each Customer's monthly billed amount to reverse the impact on abnormal weather; either colder or warmer than normal. This rider is in affect November through May
- Rider A** - Charges applicable to the Utility's customers and/or Third Party Suppliers to recover the cost of gas and related off-system services incurred by the Utility to provide Gas Supply Service to the customer. Such costs include pipeline transportation and balancing services. Typically, the rate is updated monthly and results in a unique charge for each rate class.
- Rider F** - Recovers the unfunded balance in the Universal Service Fund (USF) from Residential and Commercial End-Use Customers receiving service under Gas Rate Nos. D1, D2, D3, D4, and D5.

We'll see you at the track!

It's an annual tradition! Volunteers from Citizens Energy Group are proud to hydrate runners with cool, clean local water inside the Indianapolis Motor Speedway for the Indy Mini-Marathon every May.

2025 Drinking Water Report Available Online

Drinking water quality is a top priority at Citizens Energy Group. Many significant efforts and investments are made to ensure safe drinking water for our customers, including the protection of our water sources, quality control in the water treatment process, daily testing for quality and safety, and the maintenance of the water distribution system. Each year, we measure and report our compliance with drinking water regulations in a document called the Water Quality Report. To review the recently published 2025 Water Quality Report, visit www.CitizensEnergyGroup.com/WaterQuality.

Summer Sewer Charges

On May 1, Citizens transitioned to our annual Summer Sewer Charges program for residential customers. This program considers that some water used during the summer months may not be disposed of in the wastewater system, including water used for lawn irrigation. Therefore, to keep wastewater service costs low for customers, the residential sewer charge from May through November will be based on the customer's average water usage during the months of December through March.

In no event will the sewer charge be based on fewer than 3,000 gallons (4CCF) of water which is the minimum charge. Residential customers will see a line item on their bill labeled: Sewer Charges (xx CCF). This represents the sewer volume used to calculate sewer charges. No further action is needed by customers as enrollment in the program is automatic.

Mindful Lawn Irrigation Saves On Your Water Bill

Mindful Lawn Irrigation Saves On Your Water Bill. Gearing up for landscaping season? Even if you're used to watering your lawn on a standard schedule, consider that most Indiana lawns can go weeks without watering. Conserving on water for irrigation also saves on your water bill!

Conservation Tip:

Drain your water heater tank annually to keep it running efficiently.

Safety Tip:

Learn if your natural gas appliances have an electric igniter (often in new models) or a traditional pilot light. If a pilot light, store the appliance instructions near the appliance for easy re-lighting. Or call a professional for help!
