Notice to customers: The practice of adding charges for unrequested products or services is known as "cramming" and is prohibited by law. If you believe that any charge for a product or service that appears on your bill has not been authorized by you, call Reliant at and request an investigation of this charge. If you are dissatisfied with our investigation, you may file a complaint with the Public Utility Commission of Texas (PUCT) at PO Box 13326, Austin, Texas, 78711-3326. PUCT phone number: local 512-936-7120, toll-free in Texas 1-888-782-8477. Hearing and speech-impaired individuals with text telephones (TTY) may contact the commission at 512-936-7136 or toll-free at 1-800-735-2988.

Consumer Information Regarding Solar Panels: The Public Utility Commission of Texas has posted a guide to help consumers with information concerning solar panels. It is accessible at: <https://www.puc.texas.gov/consumer-help/electricity/solar/>

PUCT-required notice: Involuntary load shedding: If there's a situation where there's not enough electricity supply to meet customer demand (load), the Electric Reliability Council of Texas (ERCOT) may instruct your Transmission and Distribution Service Provider (TDSP) company to implement temporary service interruptions. This is done to help protect the electric grid and is known as **involuntary load shedding**, and it will be conducted based on the TDSP's procedures. For more information and to learn how you can help conserve energy, visit reliant.com/loadshed.

Notice: Certain customers may be eligible to apply for the following designations based on their medical status or the nature of the business:

- Critical care residential customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a physician as being dependent upon an electric-powered medical device to sustain life.
- Chronic condition residential customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a physician as having a serious medical condition that requires an electric-powered medical device or electric heating or cooling to prevent the impairment of a major life function through a significant deterioration or exacerbation of the person's medical condition.
- Critical load public safety customer: A non-residential customer for whom electric service is considered crucial for the protection or maintenance of public safety, including but not limited to hospitals, police stations, fire stations, and critical water and wastewater facilities.
- Critical load industrial customer: An industrial customer for whom an interruption or suspension of electric service would create a dangerous or life-threatening condition on the retail customer's premises.

You can apply for the applicable designation, which affords certain protections. Please contact Reliant for more information. Critical care residential customer and chronic condition residential customer designations require an application your physician completes and submits to your Transmission and Distribution Service Provider (TDSP) on your behalf. Critical load public safety customer and critical load industrial customer designations require you to complete an application with your TDSP.

PUCT-required notice: Vegetation Management: Need Trees Trimmed Near Power Lines?

Trees and plants growing near Transmission and Distribution lines can create safety hazards and cause outages. If you notice vegetation growing too close to power lines, you can request to have it trimmed. Doing so will help prevent outages and ensure a safe environment. Please note that the utility company will generally trim vegetation around the highest wire between electrical poles.

Contact information and details can also be found on our site at reliant.com/treetrimming
